

3B – Symbiotic City – The regenerative nature of cities. Holistic guidelines for addressing healthy population growth and city development

Craig Applegath, Architect, OAA, AIA, FRAIC, LEED AP BD+C

PRINCIPAL, DIALOG

This presentation is not uploaded on the Association websites as it is specifically designed to be seen as a backdrop to the oral presentation. However, if you would like to have access to the ideas that will be discussed, you should go to www.SymbioticCities.net, were a much more complete discussion of the ideas to be presented.
