Session           **4C - Conflicts in Construction – Intent vs. Documentation**  
Date               Thursday, May 23, 2013  
Time               3:30 to 4:30 p.m.  
Speaker           Jacques Gauthier, CCCA

This session will include the following topics:

- Explore errors that are commonly made in construction documents
- Understanding the owner’s vision .....“it’s not what I thought it would look like”
- Content of documents, pending the type of Construction management. “Get ready for RFI’s”
- Project time lines, items missed from phase to phase
- Responsibilities of all project members

Jacques was born in Ottawa, Ontario and moved to Calgary to attend SAIT (Southern Alberta Institute of Technology) graduating in 1973, with a Diploma in Architectural Technologies.

Over the last 40 years, he has employed his technical skills on a wide variety of projects and building types, including office buildings, retail stores, educational facilities, and healthcare facilities, throughout the Western Provinces, NWT and California.

Presently, Jacques is a Senior Associate with Stantec Architectural Ltd. managing the production staff for all projects.

He received his Certified Construction Contract Administrator (CCCA) designation in 2004 after many courses and became a member of CSC. Since then, Jacques has instructed several PCD & CCA classes for the local Chapter of CSC. In Jacques words I AM CSC.
