Session           **7C - Respect the Process – “In My Humble Opinion”**  
Date               Friday, May 24, 2013  
Time               2:00 to 2:55 p.m.  
Speaker           Marion Wright

**‘In My Humble Opinion’**

It has been my experience that whenever I ask an individual or group for their ideas, thoughts or opinions on a particular topic it can be like pulling teeth to get a response. When someone does speak up its amazing how many others have an opposing opinion. In our dealings with clients, prospects, colleagues, friends and family there is always the potential for conflict when opposing opinions are presented, in this workshop from RTP we will look at ways in which to stop the dialogue from escalating to conflict.

Marion Wright is a management consultant, speaker, coach and trainer, as well as partner of Eagle Point Inc. Ms. Wright has been in the consultancy field for over 15 years and has worked with companies in areas that include change management, corporate and personal goal setting, strategic planning, communication, leadership and customer service. Marion specializes in organizational development ensuring that key areas of responsibility are identified and align with the corporate objectives. As a trainer Ms. Wright develops and delivers participatory workshops within organizations.

Eagle Point Inc. a management consulting company provides advice for businesses on how to improve their efficiencies and increase their sales and profitability. Eagle Point Inc. has helped lead initiatives such as: succession plans; purchase and sale of existing businesses; shut downs; management training and employee development. RTP (Respect The Process) is a division of Eagle Point Inc. We develop and deliver workshops and seminars as well as facilitation at meetings and conferences.
