

Education, Professional Development, Networking, Entertainment and Fun are all promised to be at your fingertips at the CSC Conference in Calgary.

From the welcome reception to the traveller's breakfast the conference will deliver on all the above. The technical sessions and speakers will include:

*Design considerations for current construction trends - Mark Hagel – AB Masonry Council;*  
*Has the design and construction industry lost its way? Is our industry broken? - Bill Black – Calgary Construction Association;*  
*Accessibility matters, but do you know why? - Julie Sawchuk – Sawchuk Accessible Solutions;*  
*Acoustics to promote healing in hospitals - Kiyoshi Kuroiwa – Aercoustics Engineering Limited;*  
*Material transparency: The supply chain of embodied carbon - Panel discussion Sean Gerth – USG, Jolene McLaughlin – Ellis Don;*  
*Misguided guide specs – Are your product specs really helping the specifier? - Ron Geren – RLGA Technical Services;*  
*Smart buildings: Design and deployment, now and in the future - Dave Hiemstra – Smith and Andersen;*  
*Amplify your legacy through mentorship - Reva Bond – Dean, SAIT School of Construction;*  
*Embracing complexity and paradox to foster inclusion, collaboration and innovation - Reva Bond – Dean, SAIT School of Construction;*  
*NBCC 2020 changes to firestop requirements for penetrations, joints and curtain walls - John Valiulis - Hilti;*  
*Designing visually dynamic facades with coil and extrusion coatings - Robin Bartelman – Sherwin-Williams;*  
*Specifying high-quality hot-dip galvanized coating - John Krzywicki – American Galvanizers Association;*  
*Acoustic ceiling design/specification myths dispelled – the new way forward - Gary Madaras - Rockfon and more.*

Your host, the CSC Calgary Chapter are working diligently to bring yet another CSC conference that will deliver on all points.
