

DINNER MEETING NOTICE

(A Construction Specifications Canada Presentation)

Wednesday, February 19, 2025 – 5:30 PM to 8:30 PM

The Challenges of Winter Roofing

There are many challenges that designers, contractors, owners, and manufacturers face during the design and subsequent construction of a new roof or the replacement of an existing roof. This presentation will focus on the challenges of roofing during the winter which will include material/system limitations, scheduling/potential impact to the operations of the facility, owners expectations, etc.

Our Presenter

Ted Katsoris is a Principal and Senior Project Manager at Stantec (formerly Morrison Hershfield). Formally trained in the field of building science and project management, Ted has undertaken a wide variety of projects, ranging from building envelope repairs, mechanical upgrades, and asbestos removal to the redesign of large landscape areas. Ted's primary role at Stantec is that of client management, project planning, team management, project coordination, and quality control. Ted is also responsible for the mentorship of junior engineers and technicians.

Target Audience

Architects, Building Code Professionals, Engineers, General Contractors, Interior Designers, Landscape Architects, Manufacturer / Supplier Representatives, Owners, Property Managers, Specification Writers, and Construction Sub Trades.
