

# THE LEAF & “CANADIAN SIGNATURE EXPERIENCE”

---

Visitors at The Leaf will journey through four distinct biomes; the Hartley and Heather Richardson Tropical Biome, the Mediterranean Biome, Babs Asper Display House, and the Shirley Richardson Butterfly Garden. Experience a stunning showcase of our diversity, expressed through plants that shape our lives here and across the globe.

This designated Canadian Signature Experience tour is a unique opportunity to get more out of your Zoo visit and discover the Journey to Churchill exhibit in a whole new way! Tour this award-winning exhibit with one of our experienced and knowledgeable guides, meet with a member of the animal care team, and chat with a member of the conservation team at the Leatherdale International Polar Bear Conservation Centre. This immersive experience offers travellers a convenient and comfortable opportunity to discover the wildlife, geography and culture of Manitoba's majestic north and visit one of Winnipeg's must-see attractions.
