36th Annual No Frills Trade Show: A brief overview.

By: Mark Clemmensen

It's that time of year again where I ask you to turn your attention to the best "Local One Day Information Blitz" that our industry offers all year. Have you had enough of iPads and 42" screens showing videos or presenting products? Had enough of booths which stretch isles, with flashy advertising but little technical "touchy-feely" information available for you to grasp and understand? Want a technical representative to explain how these systems work in our climate, or how these new products are going to shape our industry for years to come?

Well the opportunity is finally back: the Toronto Chapter's "36th Annual No Frills Trade Show." The one-day event features over 175 different manufacturers, jammed into one room for one afternoon. To add to this vast learning opportunity, three lecture series topics and a demonstration area have all been added on the show floor. Why pull people off the show floor and squeeze them into small, hot rooms when we can house it all together?

To kick off the 36th anniversary of the show, the No Frills Trade Show Committee has invited Angela Solomos, from Habitat for Humanity as our featured guest speaker at the luncheon.

The lecture series features three topics of growing interest in our industry. Architectural Acoustics will

Mark Clemmensen
(Chair)

begin at 1:30pm, followed by our Legal Update, presented by Catherine Wilson, a managing partner at Willson Lewis LLP. Michael Mesure, Executive Director of FLAP, will conclude the lecture series at 4:30pm with a discussion on bird-friendly design. All lecture series presentations are free to attend by attendees and question and answer periods are provided at the conclusion of each presentation.

The demonstration area will feature two presentations on products which are involved in the roofing industry. Securock Gypsum-Fiber roof boards are a fiber-reinforced, giving the panel strength and water resistance through to the core. Securock Gypsum-Fiber roof boards provide exceptional bond and low absorption in adhered systems and their homogenous composition achieves high wind-uplift ratings with no risk of facer delamination. Seaman Corporation's FiberTite roofing membranes round out the product demonstrations, with a product installation of their single ply roofing membrane. Seaman Corp's formula includes the industry's highest KEE content, allowing the roofing membranes to maintain excellent flexibility as well as chemical and UV resistance.

Students and industry beginners are also invited to a special free 45 minute seminar on the Profession of Specification Writing, held between 2:15 and 3:00pm, adjacent from the show floor in Room 104. This seminar explains in better detail what it is to be a Specification Writer, examining their role on the project team as well as providing some understanding on what is specifications and why specifications are important in the construction industry.

Save The Date - Wednesday, March 5, 2014 at the Metro Toronto Convention Centre, Constitution Hall, North Building, 255 Front Street West, Lower Level, Room 105. Show doors are open between 1:15pm to 6:00pm.

This information and more, including free attendance badge creation, can be found on the No Frills Trade Show Website, www.csctradeshow.com.

Remember, attendance is FREE! Help support CSC and your Toronto Chapter by attending this once-a-year opportunity. EXHIBITORS WANT TO SEE YOU!

The search for the next editor begins!

By: Juste Fanou

Juste Fanou (Newsletter Editor)

When I took on the role of Specifier Editor two years ago, I could not have predicted how rewarding the experience was going to be. Despite having its share of challenges, it is a position that I have thoroughly enjoyed and that has provided me with great satisfaction.

However every beginning must have an end, and it is with a bit of a heavy heart that I announce that this will be my last term serving as your Specifier editor. I will certainly miss the Toronto Chapter's executive team and all its great members. They have certainly taught me a lot, and I hope that I was also able to positively impact them. I also hope to continue providing the readership with insights and tips on technology and how to leverage it to make our tasks easier.

With this in mind, I would also like to point that our chapter is faced with a new challenge: filling the vacant position. As you know, the Specifier is a vital part of our organization and a means to propagate important information to our members. Therefore if you have a penchant for graphic design or desktop publishing, and have a little spare time on your hands; I urge you to apply for this position. It is great fun and extremely rewarding. Please contact me at jfanou@jmfservices.net (or any of our executive committee members) if you're interested!

See you at the No Frills Trade Show!

Decoustics Plant Tour Report

By: Nancy McPherson

Everyone at the Decoustics Plant Tour had a technical session that covered Specifications, Fire and Smoke testing, Acoustical testing and Indoor Air Quality (IAQ) Testing. Fire testing in Canada is governed by CAN/ULCS102 and is conducted in the same Tunnel apparatus as ASTM E84.

This 25-ft furnace chamber measures flame spread and smoke development. In Canada, 3 identical panel assembly tests for each product is a National Building Code Requirement.

The Fire Test measures surface flame spread and smoke density calibrated to that of select grade red oak and fiber-cement board. The time to spread the flame along the entire length of the select grade red oak specimen is 51/2 minutes. A 24' (7.32m) long by 20" (508mm) wide panel is exposed to a controlled air flow and a flaming fire exposure for 10 minutes. The test is applicable to walls and ceilings.

It is conducted with the surface to be evaluated horizontally mounted with the exposed face down toward the ignition source. The purpose of this test method is to determine the relative burning behavior of the material by observing the flame spread along the specimen. Flame spread and smoke developed index are reported but there is not necessarily a relationship between them.

(Interior Design Officer)

36th Annual No Frills Trade Show

By: Bob Mercer

Bob Mercer
(Trade Show Chair)

The CSC Toronto Chapter Trade Show committee would like to invite you to participate in the 36th Annual "No Frills" Trade Show to be held on Wednesday, March 5, 2014 at the Metro Toronto Convention Centre. You will find the CSC Toronto Chapter Trade Show registration form enclosed in this issue of The Specifier. Please print the form and send it along with your cheque to the CSC Toronto

Chapter Trade Show office at the address on the form as soon as possible in order to avoid disappointment. From the number of tables sold to date, we know from past experience we will sell out quickly, so please don't delay. If you know of a potential exhibitor that is not a member or is not aware of the exceptional opportunity and value of exhibiting at our No Frills Trade show, please pass this information along. The Committee is in top gear now and is working hard to make this another topnotch event that benefits both the exhibitors and attendees.

We are delighted to announce that Angela Solomos from Habitat For Humanity Toronto will be our Luncheon Guest Speaker. Reserve your tables now to avoid disappointment.

We will be continuing with the CSC Lecture Series, which includes one-hour lectures on the show floor as well as a central networking area. Exhibitors can also request their table location on a first-come, first-served basis.

Check out the trade show website at www.csctradeshow.com and view the trade show brochure and registration form by clicking on "Forms." You can also register online as an exhibitor using your credit card or print the form and pay by cheque. Online attendee registration is also available.

If you have any questions, please feel free to email me at bmercer@cginc.com, or contact our show administrator Donna Fournier at djfournier@csctradeshow.com. Donna can be reached by phone/fax at 1-888-494-9350. If you have already registered for the show, we thank you for your support. We look forward to seeing you all at the 36th Annual CSC Toronto Chapter "No Frills" Trade Show!!

6th Annual Curling Bonspiel Event

By: Dinshaw Kanga

Dinshaw Kanga
(Membership Officer)

This is the sixth year that the Toronto Chapter has organized our popular annual curling bonspiel on February 13, 2014 at the Toronto Cricket, Skating and Curling Club.

Before the curling begins, there will be about 20 minutes of curling lessons given by the club's professional staff especially for the benefit of novice curlers. Experienced curlers are allowed to go on the ice to start their practice.

The curling bonspiel will be followed by an hour of cocktails (Cash Bar) and networking. This will be followed by a sumptuous roast beef dinner. (Please advise us of any dietary restrictions)

Early registrations are highly recommended for this popular event especially if you want to form your own curling team/foursome.

Please refer to the Flyer and Registration Form in this Specifier for details regarding start time, dress code, dinner and payment information.

Dinner Meeting

February 4, 2014

Economic Changes, what lies ahead in 2014?

This Presentation qualifies for self-directed OAA Credits

THE TOPIC

Alex will be talking about the world, U.S. and Canadian economic outlooks, with special emphasis on construction activity levels here at home. Alex will also explore some favorite themes of his: impacts of the growing proportion of seniors aged 65-plus; the nation's three natural population groupings and shifts over time; and a concern that Canadians don't fully understand: what it will take to remain competitive in the global marketplace? Canada is swiftly transforming from the country of our forefathers into something quite different and it's best to understand the new reality.

Our Speaker: Mr. Alex Carrick

Alex Carrick did his undergraduate work at the University of Western Ontario (London, Ontario, Canada), and completed an M.A. in Economics at the University of Toronto. After the first year of a Doctorate while living at U of T's Massey College, the lure of the job market was too great and in 1972 Alex went to work for the Canadian Institute of Steel Construction (CISC).

The CISC is a trade association for structural steel fabricators in Canada. Mr. Carrick later became Secretary-Treasurer as well as Economist for the CISC.

Since 1985, Mr. Carrick has been Chief Economist with CanaData, the leading supplier of statistics and forecasting information for the Canadian construction industry. He is the closing speaker at the CanaData Annual Construction Industry Forecasts Conference, which just marked its 25th anniversary year.

Mr. Carrick compiles CanaData's Annual Construction Forecast and provides updates throughout the year in the CanaData Forecaster monthly newsletter and online at www.reedconstructiondata.com/market-insights. He provides additional economic insights at www.dailycommercialnews.com/features/economy. Follow his blog at www.reedconstructiondata.com/alex-carrick.

His work has become international in scope and he delivers presentations throughout North America on the Canadian, United States and world construction markets. He is frequently quoted in major news media, especially in two Canadian construction newspapers: Daily Commercial News and Journal of Commerce. His online video analyses are a popular feature on the newspapers' websites. Please join your colleagues on February 04, 2014.

Getting to know Ryan Dawinan!

By: Stacey Bogdanow

Tell us a little about Ryan Dawinan

I went to school at Humber College in Toronto. I gained valuable experience during my co-op placement while working for DGS Consulting Services where I eventually accepted a full-time position. I have been doing specifications for many types of projects and many architectural firms.

How did you learn of CSC?

Working with Don Shortreed, a past CSC president, at DGS; he attends the meetings, trade shows and promotes taking CSC courses.

Why join CSC?

CSC offers courses to help me further understand writing specifications. CSC also provides meetings and shows where you can meet people where you learn new information and discuss issues to get different points of view. CSC is a great resource for information and our industry is constantly moving forward with new technology and these meetings and shows keep you up-to-date.

Do you plan on taking any courses?

Within the next year I plan on taking the Principles of Construction Documentation course and eventually take the Specifier One Course

Would you encourage others to become members of the CSC – Toronto Chapter?

Others will benefit from becoming a member of the CSC Chapters because it is a great source of information and a great source of new relationships. Over time it becomes less about business and work, and more about relationships you have gained.

CSC TORONTO CHAPTER SPONSORSHIP PACKAGES 2014-2015

Isabelle Champagne
(Marketing Officer)

Dear Sponsors,

For the past few years we have been using the sponsorship packages offering various combinations of events and marketing tools.

From our observations, some packages have been more popular than others (e.g. dinner sponsorships; Platinum and Diamond levels sponsorships). We are thinking it might be time to modify some options and are currently reevaluating our offering for 2014-2015.

We would like to hear back from you on what are the events and marketing tools your prefer. Are there examples from other Chapters or Associations you think we should consider? What can we improve on?

As always, we are happy to hear back from you. Please contact Wayne, Mark, or myself:

Director's Report

By: Matt Roberts

Matt Roberts
(Chapter Director)

Happy New Year & Welcome Back for the remainder of the CSC 2013/2014 calendar year.

Toronto Chapter and the Tradeshow Subcommittee are proudly hosting Toronto's oldest and longest serving trade show, The 36th Annual No Frills Trade Show on March 5, 2014 at the Metro Toronto Convention Centre. The subcommittee under the guidance of Bob Mercer, FCSC has been working diligently to put on another exciting event! Of course this event wouldn't be possible without your support, so I'm urging manufacturers to take part by booking a booth or table to

showcase your products at this annual event. I also encourage our members to attend the trade show and invite your industry friends and colleagues to attend this 1 day, 1 afternoon show. Just as the name states, "No Frills" is a show without the fancy displays, promotions and marketing but is filled with all of the technical information one needs for a successful project. I look forward to seeing everyone in attendance. If you haven't already registered, you can do so by visiting www.csctradeshow.com.

On March 1 and 2, 2014 the Board of Directors of the Association will be meeting once again to discuss many issues and tackle many tasks. This will be my 2nd meeting at the Directors level and I look forward to taking your concerns and issues to the Board for discussion and deliberation. If you have any concerns, questions, ideas, etc. that you would like me to raise, please send me an email at your earliest convenience.

Finally, Conference 2014 is being held in Kitchener, Ontario May 21 through 25, 2014. The Toronto Chapter is proud to be part of the organizing committee and is represented by Steve LeBlanc, Co-Chair for Conference 2014. This annual conference is being organized by Hamilton/Niagara, Grand Valley and Toronto Chapters and is being held at the Crowne Plaza Hotel in Kitchener. Again members are encouraged to register early and take advantage of the early bird rates offered and to book hotel rooms as space is limited! Registration information can be found online at <http://csc-dcc.ca/Conferences>.

BUILDING ENVELOPE SYSTEMS®

BlueskinVP™ vapor permeable air barrier: The next generation in building membranes

Picking up where traditional polymeric wraps leave off, Henry® Company's BlueskinVP™ is an engineered polypropylene membrane that is applied to sheathing or block using a patented adhesive and convenient peel-and-seal system – no fasteners required. By providing a continuous plane of air tightness, BlueskinVP functions not only as a water resistant barrier and rain barrier, but also reduces uncontrolled air leakage caused by various conditions, such as stack, wind and mechanical air handling effects. Benefits include:

- Enhanced occupant comfort by eliminating drafts
- Increased building longevity by providing greater moisture and water protection than traditional water resistant barriers
- Lower energy costs due to improved performance of insulation
- A healthier building environment through increased mold prevention

Self-adhered membrane eliminates fasteners that leave holes in the building envelope.

For more on BlueskinVP and potential LEED credits, call **800-486-1278** or visit us at **www.henry.com**

Business Card Advertising

Advertising in *The Toronto Specifier* offers the benefit of distribution to a minimum of 900 industry members every month for 10 issues (September 2013 to June / July 2014). The issue preceding the No Frills Trade Show is forwarded to the four other Ontario CSC chapters in addition to our regular e-mail distribution.

To returning advertisers, we would like to express our thanks for your support and we look forward to your continued sponsorship.

Advertisers!

You must be a member of CSC; please use a maximum of one (1) name per single-sized business card ad and three (3) names per double-sized business card ad.

For a new ad: Please forward a digital file in (preferred) vector format, or high-resolution (300 dpi), or send a business card for scanning to

CSC Toronto Chapter

28 Fallingbrook Crescent
Lindsay, Ontario K9V 0B3

or email to:

champagnei@chicagometallic.com

For more information:

Isabelle Champagne (647) 269-8580

Reserve your ad space in *The Toronto Specifier* newsletter for the 2013/2014 season

☐ **3-1/2" x 2" business card ad @**
\$300.00 + \$39.00 HST = \$339.00

☐ **3-1/2" x 4" business card ad @**
\$520.00 + \$67.60 HST = \$587.60

☐ **Please issue an invoice**
