I have had the opportunity to work alongside not only dedicated but hardworking individuals that make up the Calgary chapter executive. During this time I have seen the chapter grow its membership, and see chapter meeting attendance increase. Within the Calgary chapter I have found many friends as well as key mentors to provide guidance throughout the years.

We have a couple new faces on the executive this year who will bring new ideas for the chapter.

We are going to resume meetings in September with physical

Distributed work environments

Tired of working from home? Has your company managed the WFH situation effectively? Miss the banter at the water cooler or coffee station? I listened to a webinar recently on adapting company culture for remote work. If you're interested in the webinar you can find it here: [Video Conferencing, Web Conferencing, Online Meetings, Screen Sharing](#) and the accompanying [5-step guide](#).

For me, things haven't change much - other than competing for bandwidth early on while my son was still in school and finishing SAIT courses online, and my husband was doing more video-conferencing. Sometimes a chat with a client or technical rep might go on a little longer than usual. I do miss seeing my CSC family.....a few of us from various chapters chatted via Zoom over a glass of wine one Saturday night early on. Stay healthy my friends!
