

Message from the Chair

Jonathon Greenland, CTR

While it seems that the Arctic blast is done (at least for now) it starts to get us thinking of warmer times. As we march through the beginning of 2021 and into March I hope everyone was able to spend time with their families on Family Day.

CSC Calgary Chapter will miss our Connections Café event and the Ignite student design competition this year but we will be back stronger next year for these two events. As we continue to adapt to Covid-19 regulations we see changes to businesses opening. We will continue to monitor these changes in regards to monthly meetings and hopefully, return to in-person meetings shortly. The chapter executive is working on something special for our members and we will have details emailed out shortly. Please watch for our annual golf tournament on July 13, 2021, and the Pedal Pub social event on July 23, 2021; so be sure to check your email for these events.

“Success only comes to those that dare to attempt”.

I am 

Chapter Events

September 15,
2020 - DINNER
Annual Chapter Meeting

October 13, 2020
Low Slope Metal Roofing, and Fire Issues with SBS

November 10,
2020 - LUNCH

- Virtual Breakfast meeting
Future Ready Whole Building Retrofits: Façade and Core

February 9, 2021
Significant changes for Construction Law in Alberta, the Builders' Lien (Prompt Payment) Amendment Act, 2020

March 9, 2021
Filling the Gap: Who's responsible for flatness, the gap between Division 03 and 09

April 13, 2021
Joint meeting with ABEC & GAMA

March Chapter VIRTUAL LUNCH Meeting

USING DIVISION 01 TO BRIDGE THE GAP BETWEEN DIVISION 03 AND DIVISION 09

Speaker:

Keith Robinson, FCSC, FCSI, RSW

When:

Tuesday, March 9, 2021

Time:

noon to 1:30 pm

Location:

Virtual

The American Concrete Institute recognizes that there are different tolerances associated with Division 03 and Division 09 floor flatness requirements. Concrete finishers are held to a quantitative (measured and repeatable) requirement and floor covering installers are held to a qualitative (visual assessment and non repeatable). A scientific calculation using highly accurate measuring equipment versus an informal assessment using age old methods, and this is causing misunderstandings and divisiveness on the project site, and a battle between separate components of the specification that the owner does not need, nor does it want to pay to resolve.

Join us to learn more about juggling the risk and aligning expectations to the entities best able to manage the risk components of the work.

Speaker:

Keith Robinson has worked as a specification writer since 1982 and is an associate at Dialog in Edmonton, AB, responsible for research and development of technical specification content. His range of experience includes contract administration, building envelope detailing, and writing construction specifications.

If you have any questions please contact Dave Dagnall at david@specbossinc.com

Member News and New Members

Sylvie Dzikewich, CTR

Welcome new member, **Leonoever Racela**, from B+H Architects; leo.racela@bharchitects.com, sponsored by Tim Simpson.

91 people renewed their membership before January 30 and were entered in the CSC Calgary membership contest. Congratulations to **Dustin Olson, Trevor Beaudette, Rick Adams, and Paul Jensen** whose names were randomly drawn. Each won a \$300 Amazon gift card, courtesy of CSC Calgary.

Please continue to support CSC and its mission to "**Educate, Communicate, and Collaborate**". If you haven't already renewed, it's easy-peasy to do online at www.csc-dcc.ca

Together we remain 

CSC Continuing Education

While CSC classroom based learning has temporarily been suspended, CSC Workshop Courses have moved to a Virtual Platform.

Offered in real-time, the students will be able to interact with each other and the instructor during their learning process in the convenience of their home, office or anywhere they can access the internet.

In just 5 days (one day per week for 5 weeks) you can complete CSC's Technical Representative (TR) or Construction Contract Administration (CCA) courses, and in 7 days (one day per week for 7 weeks) you can complete the Specifier course! For more information and to register go to: <https://www.constructioncanada.net/newsletter/20201120-CSCWorkshops/>

Platform used: MS Teams.

Successful completion of CSC's Principles of Construction Documentation is a prerequisite for the following courses:

- **Specifier** - starting February 22 (7 week course)
- **Technical Representative** - starting February 26 (5 week course)
- SORRY - IT'S FULL!
- **Construction Contract Administrator** - starting March 5 (5 week course)

The **Principles of Construction Documentation** course (**PCD**) will be offered online, hosted by SAIT, and taught by CSC instructors starting May 3rd. For more information and to register go to: <https://coned.sait.ca/search/publicCourseSearchDetails.do?method=load&courseId=1027470>

Something to look forward to!

Save the dates!!
CSC Calgary **Golf Tournament, July 13th.**

Third annual **Pedal Pub, July 23rd**

2023 CSC Annual Conference

The annual CSC conference will be held in Calgary in 2023!

Ideas for a theme? Send them to [Jonathon Greenland](#).

Want to get involved? Contact [Jonathon Greenland](#). We will need volunteers for the following committees:

- Technical program
- Social program
- Companions program

It's a great way to get involved with the chapter, learn more about CSC, and have a lot of fun.

End of an era Goodbye, Stampede Corral!

Out with the old and in with the new. The 70-year old Stampede Corral has been demolished to make room for a \$500M update to the BMO Centre, scheduled to open in 2024.
