School of Construction Virtual Showcase

April 25 - 29, 2022

This is the second annual SAIT School of Construction Virtual Showcase. Over the week there will be 150 capstone student presentations from its technology programs: Architectural Technologies, Civil Engineering, Engineering Design and Drafting, Geomatics Engineering, Geographic Information Systems and Construction Project Management. Some of these programs also produce posters that will be available for viewing in a gallery.

Interview videos with some of SAIT's apprentices (current and past) will be in the event platform sharing their favourite aspects of their chosen profession and what their educational experience at SAIT was like.

To register FOR FREE go to https://whova.com/portal/registration/socg_202204/

For a sample of what you can expect, check out this presentation on a vertical farming retrofit project from last year AD04 Verticull <https://youtu.be/3vfcJbfrVSA>

You might just find your next hire! Congratulations SAIT students!
