May News

Niagara Falls

Since our Annual Conference will be held in Niagara Falls this year, we would like to share some exciting facts about them. We hope you find them interesting too.

- The water that flows over Niagara Falls comes from four of the five Great Lakes: Erie, Huron, Michigan and Superior. From the Falls, the water travels down the Niagara River to Lake Ontario, then to the St. Lawrence River and finally to the Atlantic Ocean.
- Initially, 5.5 billion gallons per hour of water flowed over Niagara Falls. However, half of this water is diverted for power by the United States and Canada.
- The average depth of the water below Niagara Falls is 170 feet, which is as deep as the Niagara Gorge banks are high.

- Niagara Falls is the collective name for three waterfalls — the Horseshoe Falls, the Bridal Veil Falls and the American Falls — that overlap the international borders of Canada and the United States.

Chapter Executive Spotlight

Lori Quine

Lori joined CSC in the Fall of 2021 as the Marketing officer on the executive committee and is happy to continue filling that role.

Lori Quine is a born and raised Calgarian but has also travelled the world, exploring and trekking in 32 countries. She worked in the cruise ship and hotel and restaurant management industry and spent a year in Barcelona studying Spanish. One of the many highlights was the time she spent working for Gordon Ramsey in London, and yes, he is very much like you'd think. A focused and passionate professional. :)

After completing an Interior Design designation at Bow Valley College in 2006, Lori has worked in many different aspects of the design community, from Morrison Homes to Division 9 sales with local dealers/retailers.

An Architectural Design Representative for several years in Stone and Porcelain Tile (Ames and Daltile), Lori has recently moved to a Technical sales position with Forbo Flooring systems, focusing on resilient and sustainable flooring. She enjoys continuing to connect with the A&D community and end users.

Lori is excited to be a part of the CSC team and brings a sparkling personality, curiosity and a drive for success and teamwork.

Chapter News

May Fun Facts

May 28: Slugs Return from Capistrano Day

It's the little-known sister day to the Swallows Return to Capistrano Day. On March 19 every year, migratory swallows return to their perch in La Misión de San Juan Capistrano.
