### Getting to know your Executive Committee Members

**Name:** Lisa Hastings  
**Professional Designation:** Manager,  
Technical Services, C. Tech.  
**Employer:** Associated Engineering

**Name:** Kevin Hendriks  
**Professional Designation:** President  
(Owner)  
**Employer:** All Point Distributors Ltd.

**Year joined CSC:** 2019  
**Role:** Engineering Officer

**What influenced me to join CSC?**

My former manager, Collin Halliwell, was in the same position. When he moved to Ontario he suggested that I get in touch with the Regina Chapter. I work with some of the members and feel that it's a great way for me to better understand their business.

**What's the best advice you were ever given? Who was it from?**

When your kids tell you they don't like you or that they hate you (and they will) just smile and say "that's ok, I have enough love for both of us". Never let them push your buttons! If you feel like crying (and you will) go to your room, close the door, and have a cry. My very good friend Sandy told me this when my kids were little and she was right as both my kids only said it once. They didn't get a reaction so the tactic was removed from the toolbox. I have used this advice a lot both at home and at work!.

**What's your favorite sport to watch and which team do you root for?**

Hockey and I enjoy watching it live more than on TV. We have Pats season tickets and follow Boston and New Jersey in the NHL.

**Year joined CSC:** 2015  
**Role:** Trade Contractor Officer

**What influenced me to join CSC?**

I joined the executive to become an engaging voice for the industry. I believe I offer a view from the trade contractors point of view that may be easily overlooked when the industry is moving at such a fast pace forward. Networking with the members within the Regina Chapter to a surprising network I have gained throughout Canada has been a reward I come to appreciate.

**What's the best advice you were ever given? Who was it from?**

Never get caught standing around and leave your tool belt on when you stop for lunch or coffee. The many years I was working onsite, I did not stand around and chat; those who stood around were typically the first to go home. I also left my tools on at all times, which definitely helped me out when the foreman would burst into the lunch room looking for a carpenter to fix a problem. I was up and out on site and had the repair fixed before most would even arrive at the area of concern.... I thank my Dad for passing this valuable information.

**What's your favorite sport to watch and which team do you root for?**

I really like Baseball, however I do not find a whole lot of spare time to sit and watch regular games BUT I do get to watch several world series games... So, it always local first with the Red Sox, the Atlanta Braves would be the team to watch.
