The CSC London Chapter hosted a half day SpecCONNECT Workshop offered by industry participants for the betterment of Construction Documents. The topic of the workshop was on Division 00 - Procurement and Contracting Requirements and what you need to know and what you thought you knew about Division 00. communities to discuss Specifications in all its forms. The workshop dove into 3 areas of Division 00, including those concerning actually writing and the coordination of the Division 00 with the other sections of the Project Specifications.
