MAINTENANCE DEPOT TOUR & SOCIAL

Join the CSC Regina Chapter for a construction tour of the Maintenance Depot! Following the tour there will be a social at The Lobby!

ABOUT THE PROJECT

The building is intended to house maintenance equipment, a small office, and staff amenity space. The building features two main masses; office and shop. The building uses wood construction in a variety of different assemblies.

The project was designed through an iterative process with the Provincial Capital Commission to meet their Master Plan for Wascana Centre. The aesthetic is intended to be consistent with a working yard and reference agricultural architecture.

The Ministry of Saskbuilds and Procurement set Energy Efficiency as a priority for this building. The design team was challenged to deliver a design that beat the National Energy Code of Canada for Buildings 2017 by 25%. The final design exceeded this goal!

APPIES

2024 Annual Student Fair

The CSC Regina Chapter held our annual student dinner. This event was a great opportunity for the Saskpolytech architectural technologies students to network with our industry attendees.

Thank you to our presenters: Dan Coccimiglio with Saskpower, Vanessa Keilback with 1080 Architecture, Ian Walker with Stantec, and Alana Folk with PCL.

Thank you to our sponsors for making this event possible!

Director's Report

The Executive Council (EC) met in Toronto on January 26th and 27th. This was David Graham's second and final meeting as Association President. Although this was my last EC meeting, I'll be hanging around a few more months as your director. With only one absentee from the meeting, there was a lot of constructive discussion over the two days.

Getting to know your New Executive Committee Member

Ashley Bull

Professional Designation: CSP

Employer: P3A

Year joined CSC: 2011

Role: Specifications Officer

What influenced me to join CSC?

Gerry Wilson, RSW, FCSC, Past President was my mentor at my first office out of school and he immediately had me join the Saskatoon Chapter in 2005. Once I came to P3A, I wanted to re-join CSC as I knew it would be a great way to further my knowledge of and connections with the local construction industry and people.

What's one thing you're currently trying to make a habit?

Get myself out of my introverted comfort zone and be more sociable around the office / industry.

What book are you reading now?

NBC 2020
