**MEMBER SPOTLIGHT**

The CSC Regina Chapter would like to formally recognize and congratulate Elvia Torres Morales and Mannie Amyotte on obtaining their CCCA designation!

**Elvia Torres Morales**

**Mannie Amyotte**

**How long have you been a member of the CSC?**

Since 2024

**What motivated you to receive the CCCA designation?**

Because it validates my knowledge of construction contracts, risk management, and legal aspects. It also demonstrates commitment to professional excellence in contract administration as well as being recognized by employers and industry associations.

**What advice would you give to other members interested in receiving their designation?**

- Understand the certification requirements
- Gain practical experience in contract administration
- Develop strong contract interpretation skills
- Prepare for the exam strategically

The certification process may be challenging, but persistence and dedication will pay off.

**A little more personal:**

I am a licensed Engineer in SK, I currently live in Yorkton and I have been working in the mining Industry since 2014

**How long have you been a member of the CSC?**

I have been a member of the CSC Regina Chapter for five years.

**What motivated you to receive the CCCA designation?**

My manager, Rick Hadubiak suggested that I pursue the designation. I had seen his and other co-workers' involvement in CSC and felt there would be merit achieving the designation. The certificate does bring a great deal of credibility to my position as a contract administrator. Continuing education and learning are important in our jobs and proves willingness to grow and advance in our organization. Living Skies Housing Authority has always been supportive of the CSC and training it provides. The CSC is a valuable resource to our workplace.

**What advice would you give to other members interested in receiving their designation?**

In whatever role we represent in the organization, continuing education holds a high degree of importance. It gives opportunities for personal growth, knowledge, and a genuine interest in remaining current in industry standards and procedures.

**A little more personal:**

As a Metis person, I always try to remind myself that I am representing our Nation. It shows that education, learning, and a desire to continually improve are qualities that will be beneficial no matter what stage of my career. If I can lead by example, it will hopefully encourage other Indigenous people in the labour force to choose a life of positive career choices. Education is our Buffalo.

# The Nest

In March, CSC held a Lunch & Learn which featured a tour of the ongoing renovations at The Nest Health Centre and presentation on the project and owner requirements in Healthcare. A huge thank you to Dr. Ankit Kapur for presenting to our group!
